

# STICK MONSTERPOD TEMPORARILY TO ALMOST ANYTHING THEN PEEL IT OFF

## WIRE

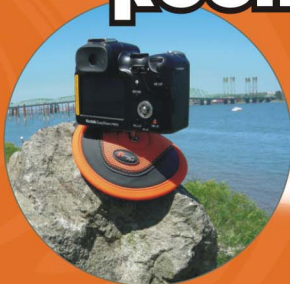

MonsterPod makes it easy to stick your compact digital camera temporarily to almost anything, anywhere, anyplace... then peel it off.

MonsterPod's polymer base temporarily bonds to rocks, trees, walls, ceilings, cars, boats, bikes, rods, rails, poles, wire fence and much more. Its pod like shape contains a special patent pending ViscoElastic polymer that morphs to rough, smooth, sharp or round objects.

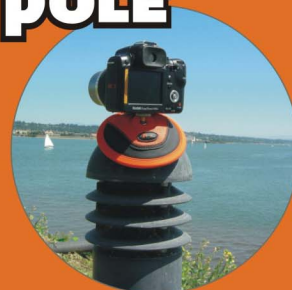

MonsterPod temporarily bonds to more than 1,000 different objects at nearly any angle. The MonsterPod has no telescoping legs, clamps, bean bags, glue or suction cups. It holds your digital camera vertically, horizontally or upside down using its amazing ViscoElastic base. The MonsterPod bonds temporarily for you to take your perfect picture. Then you gently peel it off when finished!

## ROCK

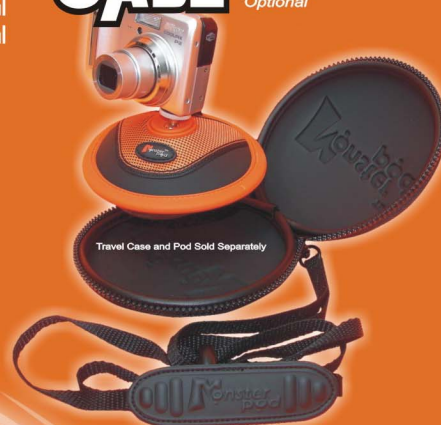

MonsterPod creates a temporary bond from 1 to 10 minutes. It can absorb dirt with little or no affect. You can use your MonsterPod in warm and cool weather. Get your amazing MonsterPod today, to hold your compact digital camera or digital cam recorder.

## POLE

## CASE

*Optional*

## SWIVEL HEAD

Camera mount tilts, bends and rotates 360 degrees in all directions.

## SILICONE OUTER RING

Flexible outer ring morphs to almost anything.

## RUGGED EXTERIOR

Stylish and rugged waterproof design.

## VISCOELASTIC POLYMER

Patent pending base bonds temporarily to almost any surface.
